SOLUTION TO PENCIL PROBLEM

PENCILS. PRICE. MONEY.

3	4c each.	12
15	3/4c "	7 1/2
2	3/4c "	1 1/2
20 pencils.		20 cts.

He paused and stood as solemn as an undertaker. He'd paid \$5 too much for his suit, 'cause they'd trust him. How many more are in the same boat, but not aware of it?

Times are changed, prices are changed and ways of dealing are changed.

It's time to throw off that binding coil of obligation, by passing receipts, bidding adieu to old fogy methods and swimming with the tide of economy into the harbor of success, through the modern channel.

C. O. D.

The When clothiers offer great inducements to buyers with ready cash, at all times, but more particularly at this time, for, in addition to the advantages derived from manufacturing and retailing direct, they are taking down the prices on many lines that have become short the full complement of sizes, to insure their going before stock taking overcoats.

A big line with but few sizes short are going at Two Dollars each.

Little chaps' overcoats at a shade short of perfect and but few left, One Dollar each.

Men's suits that used to be ten dollars are down to five, in order to get sold before inventory.

Scotch caps, if you come quick, 25c each.

All-wool pants, a little off color, One Dollar a pair.

Ten ounce underwear, 25c a garment.

\$1.25 scarlet medicated underwear, 80c a garment.

We are very anxious to show little boys' suits.

A whole pile of them from former \$4, \$3.75 and \$3.50 lines now ready for delivery at \$3 a suit. They're odd, you know.

Scarlet lambs-wool half hose, 35c, are on the way.

AMID GREAT DISORDER.

Robert Robertson sworn in as Lieutenant Governor of the State of Indiana.

A Talented Swindler Succeeds in Cincinnati—A Cousin's Gift—A Royal Tale—John Roach Dead.

By the Associated Press.

INDIANAPOLIS, Jan. 10.—The hallways and corridors of the capitol were thronged by a throng of people this morning, anxious to witness the possible developments in the political struggle now in progress. Directly after prayer in the house the door-keeper stepped to the front of the speaker's chair and announced the presence of the senate, consisting of nineteen republicans and one democrat. The republican senators entered and took seats. The democrat, however, vainly claiming the speaker's attention, Speaker Sayre immediately announced that the business of the convention was the election of a speaker. The democrat then sought a hearing, but was promptly told he was out of order. Other democratic members also claimed the speaker's attention, but all were refused recognition. Reading of the returns consumed half an hour, and at the close, while the clerk was making his computations, the democrat, who had been refused recognition, was allowed to enter the hall and was heard to say that he would not be in order until the canvass was completed. The result of the vote was announced: Robertson, 222; 916; Nelson, 229; 505; Robertson's majority being 3,322. Upon this Robertson was sworn in by Judge Walker, of the superior court. Said Speaker Sayre: "I declare Robert Robertson lieutenant governor of Indiana and he will address you." Mr. Robertson instantly advanced to the front of the speaker's desk and, taking the oath, he was sworn in as lieutenant governor. Mr. Gordon (democrat) raised his hand and called, "Mr. Speaker," but no attention was given him. Mr. Jewett also raised his hand and called, "Mr. Speaker," but no attention was given him. Mr. Robertson delivered his inaugural address.

A SWINDLER SUICIDES.

He Secures Morphine from a Socialist and Takes Too Much.

CINCINNATI, Jan. 10.—Prof. B. Schaff, who has been in jail for days for swindling book publishers in Boston, New York, Philadelphia and other cities by representing himself as purchasing for students of Wertberg seminary, was to have appeared in the police court this morning. He was found to be in a stupor, and after being taken to the hospital died. It was found that a socialist who had been discharged from jail but a few days ago, had secured a quantity of morphine, for which Schaff gave an order to the socialist authorizing him to take charge of all effects he might leave. As none of the publishers had heard of his death, he was here to prosecute. Schaff could not have been convicted of anything if he had gone to the trial. He was about 24 years old, of scholarly bearing, and was evidently well educated. He represented himself as having come but a few months ago from Berlin.

RELIEVED FROM SUFFERING.

Death of John Roach the Famous Ship Builder.

New York, Jan. 10.—John Roach, the great ship-builder, died at 8 o'clock this morning. Mr. Roach was in great pain all day yesterday and to give him relief, large doses of morphine were injected and he was unconscious most of the day. The couple have four children: John B., who lives at Chester, Pa.; Garrett, who lives on Fifth avenue near Eighty-fifth street; Charles, who lives at the Morris farm; and Stephen, who lives with his parents and one daughter, Mrs. McPherson, who resides in Philadelphia.

AN INTERESTING TALE.

Vicissitudes of a Siberian Exile—An Heretofore Apparent Exile.

St. Louis, Jan. 10.—A special from Telegraph says that a man has been at the capital of the Czar for some time, claiming that he is a brother of the Prince Bagrat, wife of the late czar. He says he was exiled to Siberia, escaped after five years, spent nine years in China, then in South America, and then here. He says he is in correspondence with his sister, who is in France in semi-exile, because her eldest son will soon be eligible for the throne.

THE SUN TALKS.

Illness Likely to be Forced on 150,000.

New York, Jan. 10.—The Sun this morning says: "There are about 150,000 tons of coal now on the seaboard, a week's supply. If the strikers are able to order the miners the coal will not yield, their contracts will pinch them and they will be quiet. Should the miners in the Cumberland valley and Pennsylvania coal fields be called out, it would force illness upon upwards of 150,000."

AN IMMENSE FORTUNE.

Five Million Dollars Left by a Cousin to be Divided Among Five Brothers.

MILWAUKEE, Wis., Jan. 10.—A special from Superior City says: Alex. Crawford, a well-known Duluth iron manufacturer, has received notice that by the death of a cousin named James Thompson, in Ballarat, Australia, a fortune of over \$1,000,000 has been left him and his four brothers, giving them each nearly \$200,000. Crawford has not seen his cousin in forty years.

TERRIBLE FIRE IN SPAIN.

Several Persons Burned to Death and a Library Destroyed.

MADRID, Jan. 10.—A fire occurred in the Alcazar palace, occupied by the military academy at Toledo yesterday. The library was completely destroyed. It is reported that several persons were burned to death.

Death of the Oldest Lawyer in the United States.

PHILADELPHIA, Jan. 10.—Elijah Babcock, the oldest resident of Erie and probably the oldest practicing lawyer in the United States, died yesterday, in his ninety-second year. He was born in Providence, R. I., and admitted to the Pennsylvania bar in 1824.

Explosion of Dynamite.

PHILADELPHIA, Jan. 10.—Last evening a quantity of dynamite used for blasting, stored in a frame shanty on a lot at Twenty-ninth and Stiles streets, exploded, instantly killing Patrick Powers, the watchman, whose body was badly mutilated.

Standard Time Voted.

PITTSBURGH, Jan. 10.—Mayor Wyman, of Allegheny City, has vetoed the Eastern standard time ordinance, and hereafter the time in the city across the river will be twenty minutes slower than Pittsburg time.

Give Us a Rest.

New York, Jan. 10.—The World this morning calls on republicans to unite with democrats and elect Roscoe Conkling United States senator.

Valuable Horse Dead.

CHICAGO, Jan. 10.—A special from Kalamazoo, Mich., says: Grand Sentinel, the finest stallion in Michigan, died yesterday from blood poisoning. His owners received \$30,000 for him twice.

CAR-HEATING APPARATUS.

The Lesson Learned from the Tiffin Disaster.

WASHINGTON, Jan. 10.—Since the recent terrible disaster on the Baltimore and Ohio railroad near Tiffin, O., the subject of heating cars by some other method than that now in vogue has been the topic of a great deal of discussion. At the patent office, where inventors are wont to gather, this subject has been one of exceedingly lively interest, and during the past three days that portion of the office which has charge of applications for patents has been besieged by a throng eager to secure all the information possible on the subject of heating apparatus which has thus far been patented. It is thought by the officials of the department that within a month a host of applications will be filed for patents on devices for heating trains by the exhaust steam from the engine, by electricity, and by other methods less dangerous than stoves. There have been a great many patents granted for devices of this kind, but for some reason they have not met the general approval of the railway people, and the right thing for the time has not yet been perfected. A gentleman who is the purchasing agent for one of the largest systems of railway in the country, who is in Washington, said that the inventor who perfects some kind of car heating which will not away with the general approval of the railway people, and the right thing for the time has not yet been perfected. A gentleman who is the purchasing agent for one of the largest systems of railway in the country, who is in Washington, said that the inventor who perfects some kind of car heating which will not away with the general approval of the railway people, and the right thing for the time has not yet been perfected. A gentleman who is the purchasing agent for one of the largest systems of railway in the country, who is in Washington, said that the inventor who perfects some kind of car heating which will not away with the general approval of the railway people, and the right thing for the time has not yet been perfected. A gentleman who is the purchasing agent for one of the largest systems of railway in the country, who is in Washington, said that the inventor who perfects some kind of car heating which will not away with the general approval of the railway people, and the right thing for the time has not yet been perfected.
